PROFESSIONAL SUMMARY

MERN Stack Developer with 2-year of experience in Mern Stack web application using MongoDB, Express.js, Node.js React.js and Next.js. Focused on scalable back-end, clean UI, smooth user experience, and well-structured MERN applications.

EDUCATION

University of Management and Technology (UMT), Lahore

Bachelor of Science (ADP) in Software Engineering | 2023 – 2025

WORK EXPERIENCE

Animmza Technologies

Feb 2025 - Aug 2025

Developed high-performance, web applications using React.js during a six-month internship. Focused on transforming complex designs into scalable components and intuitive user interfaces.

Code Alpha

Aug 2025 - Nov 2025

In a three-month tenure, I built modular and scalable React.js Next.js components TailwindCSS and Back-end Technologies that significantly stabilized web interfaces. By optimizing frontend architecture, I ensured a seamless and consistent user experience across multiple application

WebVentis

Jan 2026 - Present

Building high-performance MERN application with React.js, Next.js Node.js, Express.js, MongoDB and PostgreSQL Architecting scalable full-stack solution using Tailwind CSS, and Node.js RESTful API integration. I ensure robust data flow and interactive user experiences by developing scalable front-end architectures and optimizing end-to-end connectivity and data management.

❖ **Certificate available upon request**

TECHNICAL SKILLS

- | | | |
